AUTUMN *Harvest*

DESIGNED BY *SK Wedding and Event Design*

DEMONSTRATING THAT centerpieces don't have to be of the floral variety, Stacy Kvam of SK Wedding and Event Design filled an antique tool carrier with miniature white pumpkins and Red Delicious apples. Baskets, wooden bowls, and other inexpensive vessels would also work nicely. Textured table linens in cream and harvest gold set off the simple ruby-red napkins and candle wraps, while flatware, place settings, and stemware from Vera Wang's Champagne Duchess collection elevate the table's rough-hewn edges and organic elements. The menu is printed on edible chocolate, and personalized cherry-glazed Washington apples serve as guest favors. *SK Wedding and Event Design, 425-576-4259; skweddingandeventdesign.com*
